A NEW FIREPLACE IN 4 EASY STEPS

- 1) Measure your existing fireplace
- 2) Choose your insert
- 3) Select a surround
- 4) Customize your insert

STEP 1: MEASURE YOUR EXISTING FIREPLACE

The height, width and depth of the existing fireplace opening is needed to ensure an appropriately-sized insert is selected.

STEP 2: SELECT YOUR INSERT

Selecting an insert consists of two main factors. Keep both in mind for a solid choice.

- Consider the size of your existing fireplace opening. Try and fill that space.
- Consider how your insert will be used. Room size, heating needs and usage frequency all come into play.

SURROUND	ESCAPE-I35, GRAND-I35, COSMO-I35	ESCAPE-I30, SUPREME-I30, COSMO-I30
