Legacy

TrueView Gas Fireplace

Legacy

Nothing comes between you and the fire

The Legacy TrueView gas fireplace is the first ever gas fireplace without glass that terminates horizontally. A large, traditional viewing area, robust flames and mild heat for year round use are yours with an intuitive touchscreen remote control. And WhisperTone™ technology provides flexibility to install the Legacy where you want it.

Features

- No glass
- Large 42" x 28-1/2" viewing area
- 65,000 BTUs
- Mild heat output allows placement of a TV 12" above the fireplace opening and year round enjoyment
- Large premium cast logs
- Enhanced safety with the IntelliFire™ Touch ignition system
- Standard RC400 touchscreen remote control
- Top down accent lighting

Options

Interior Panels

Traditional Interior Panels

Herringbone Interior Panels

Doors

Black Grand Vista Screen Doors

Controls

IntelliFire Touch Touchscreen Remote Control (standard)

Features: on/off, lights adjustment, room temperature readout, child lock, timer mode, WhisperTone technology, wall docking station.

IntelliFire Touch Wireless Wall Switch

Features: on/off, battery strength indicator.

Technology

IntelliFire Touch Ignition System

The IntelliFire™ Ignition System (IPI) is the most advanced and intuitive IntelliFire system, making operation of your fireplace simple, smart and safe. Select the wireless wall switch or touchscreen remote control for the solution that fits your life.

WhisperTone Technology

Patent-pending system allows airflow with minimal sound, the ability to terminate horizontally for fireplace location flexibility, and an automatic damper which stops air movement when the fireplace is off, preventing cold air infiltration into the home.
